

Capstone Project -1

Play Store App Review Analysis

Individual Project

Saurabh Shinkar

Problem Statement

- ***The Play Store apps data has enormous potential to drive app-making businesses to success. Actionable insights can be drawn for developers to work on and capture the Android market.***
- ***Each app (row) has values for category, rating, size, and more. Another dataset contains customer reviews of the android apps.***
- ***Explore and analyze the data to discover key factors responsible for app engagement and success.***

Understanding Of The Play Store Data

- ❑ **App:** Application Name
- ❑ **Category:** Category of the Application
- ❑ **Rating:** Rating of the Application
- ❑ **Review:** Review of the Application
- ❑ **Size:** Size of the Application
- ❑ **Installs:** No. of installs of the Application
- ❑ **Type:** Whether the Application is free or paid
- ❑ **Price:** Price of the Application
- ❑ **Content Rating:** For whom the content has been created
- ❑ **Genres:** Genres to which Application belong
- ❑ **Last updated:** Application recently updated Date
- ❑ **Current Ver:** Current version of application
- ❑ **Android Ver:** Android version of application

Understanding Of The User Reviews Data

App: Application Name

Translated Review: Review In Words

Sentiment: An attitude, thought, or judgment prompted by feeling. It is Positive, Negative or Neutral in our Data.

Sentiment Polarity: It is the expression that determines the sentimental aspect of an opinion

Sentiment Subjectivity: Subjective sentences generally refer to personal opinion, emotion or judgment whereas objective refers to factual information. Subjectivity is also a float which lies in the range of $[0,1]$.

Data Cleaning And Preparation

- **Handling missing values**
 - Looking for percentage of null values of each column
 - For columns containing large null values, replacing null with proper values.
 - For columns containing small null values, dropping those nulls.
 - For columns containing more than 50% null, dropping whole column.
- **Making each column values in proper format**
 - Removing unnecessary signs
 - Changing Type of values into float or integer from string and other format
- **Handling duplicate values**

Insights Into The Play Store Data

App	Category	Rating	Reviews	Size	Installs	Type	Price	Content Rating	Genres	Last Updated	Current Ver	Android Ver
